

PROJECT NAME: Computer Simulations Modeling and Design

RECIPIENT: Weber State University

LOCATION: Ogden, Utah

PURPOSE: The need for educated and qualified modeling and simulation analyst graduates is essential to the armed forces, industry, and academia. Modeling and simulations create virtual environments to mimic real-world environments and events to be experienced without real-world consequences.

Funding will be used to lay the foundation for creating curriculum needed to educate and train individuals to pursue a career in simulations and modeling, design, and web design while meeting the military and industry needs.

AMOUNT: \$1,200,000
